

Commonwealth Fact Sheet

THE AUSTRALIAN RADIATION PROTECTION AND NUCLEAR SAFETY ACT 1998

If your project uses or handles radioactive material, you must obtain permits in accordance with this Act or State and Territory regulations.

1. What approvals do I need?

Licenses are required to:

- Source radioactive material and related instruments/apparatus, and
- Operate a prescribed radiation facility.

A detailed list of activities is available on the Australian Radiation Protection and Nuclear Safety Agency (ARPANSA) [website](#).

Permits are also required to:

- Import and Export radioactive material.

2. Who provides approvals?

ARPANSA regulates activities with direct Commonwealth involvement under the *Australian Radiation Protection and Nuclear Safety Act 1998*.

Where there is no Commonwealth involvement, State and Territory regulations apply, and require separate approvals.

3. How do I get Commonwealth approval?

Guidelines and application form for [licences](#) and [permits](#) are available online.

4. More information

Commonwealth

For more information on offshore transport security, visit the [Department of Infrastructure, Transport, Regional Development and Communications](#) or phone 1300 791 581 or + 61 2 6274 6992 (from outside Australia).

State and Territory

ARPANSA works with state and territory regulators to promote national uniformity of radiation protection. Relevant state and territory contacts are listed [here](#).
