14. Glossary .................................................................................................................................. 21
1. Methane Emissions Reduction in Livestock: Research Grants processes

**Methane Emissions Reduction in Livestock: Research Grants** is designed to achieve Australian Government objectives. This grant opportunity is part of the above grant program, which contributes to Department of Industry, Science, Energy and Resources Outcome 2. The Department of Industry, Science, Energy and Resources works with stakeholders to plan and design the grant program according to the Commonwealth Grants Rules and Guidelines.

The grant opportunity opens
We publish the grant guidelines on business.gov.au and GrantConnect.

You complete and submit a grant application
You complete the application form, addressing all the eligibility and assessment criteria in order for your application to be considered.

We assess all grant applications
We review the applications against eligibility criteria and notify you if you are not eligible. We assess eligible applications against the assessment criteria including an overall consideration of value with relevant money and compare it to other eligible applications.

We make grant recommendations
We provide advice to the decision maker on the merits of each application.

Grant decisions are made
The decision maker decides which applications are successful.

We notify you of the outcome
We advise you of the outcome of your application. We may not notify unsuccessful applicants until grant agreements have been executed with successful applicants.

We enter into a grant agreement
We will enter into a grant agreement with successful applicants. The type of grant agreement is based on the nature of the grant and proportional to the risks involved.

Delivery of grant
You undertake the grant activity as set out in your grant agreement. We manage the grant by working with you, monitoring your progress and making payments.

Evaluation of Methane Emissions Reduction in Livestock: Research Grants
We evaluate the specific grant activity and Methane Emissions Reduction in Livestock: Research Grants as a whole. We base this on information you provide to us and that we collect from various sources.
2. **About the Methane Emissions Reduction in Livestock program**

The Methane Emissions Reduction in Livestock program (the program) is part of the $95.4 million *King Review Technology Co-Investment Fund* to provide a clear pathway for low emissions technology investment and support the Government’s technology-focused approach to reducing emissions while supporting business and economic growth, as outlined in the *Technology Investment Roadmap*. The program will run over three years from 2021-22 to 2023-24. It will collect data to develop a livestock emissions framework, and demonstrate productivity outcomes from the use of low emissions feeds and feed supplements (feed technologies) in livestock. Examples of feed technologies include *Leucaena, Desmanthus, Asparagopsis* and 3-Nitrooxyproponal (3-NOP). The framework will be informed by existing scientific literature and the collection of new data (e.g. on the dose-response relationship), and be suitable from the farm-scale to the national-scale. Once developed, the framework and demonstrated productivity impacts will support the uptake of feed technologies by producers and lead to reduced emissions and improved productivity in livestock sectors.

The program has two main elements to support the development of a livestock emissions framework by the department:

1. **Methane Emissions Reduction in Livestock: Research Grants** (this grant opportunity) - grants for on-ground trials involving Australian producers to collect data on emissions and productivity impacts from the use of low-emissions feed technologies
2. **an ad-hoc grant to Meat and Livestock Australia** for the integrated analysis and assessment of scientific outputs and data (in line with the Emissions Avoidance Partnership, formerly the National Livestock Methane Program II National Livestock Methane Program II).

### 2.1. About the Methane Emissions Reduction in Livestock: Research Grants

These guidelines contain information for the Methane Emissions Reduction in Livestock: Research Grants.

The objectives of this grant opportunity are to:

- engage livestock producers and build an evidence-base to support calculation of livestock emissions reductions and productivity outcomes (e.g. dose-responses) in livestock, from the use of feed technologies
- increase livestock producers’ and service providers’ experience with feed technology products
- verify claimed productivity and emissions reduction benefits
- leverage co-investment in technologies that have the potential to reduce livestock emissions
- support partnerships between producers and industry to advance emissions reduction in livestock.

The intended outcomes of the grant opportunity are:

- improved understanding of the costs and benefits of low emissions feed technologies
- improved accounting for livestock emissions.
The Department of Industry, Science, Energy and Resources (the department) is responsible for administering this grant opportunity. We administer the program according to the Commonwealth Grants Rules and Guidelines (CGRGs).\(^1\)

This document sets out:

- the eligibility and assessment criteria
- how we consider and assess grant applications
- how we notify applicants and enter into grant agreements with grantees
- how we monitor and evaluate grantees’ performance
- responsibilities and expectations in relation to the opportunity.

We have defined key terms used in these guidelines in the glossary at section 14.

You should read this document carefully before you fill out an application.

### 3. Grant amount and grant period

The Australian Government has announced a total of $6 million over three years for the program. For this grant opportunity there is an estimated $4 million available.

#### 3.1. Grants available

The grant amount will be up to 100% per cent of eligible project expenditure (grant percentage)

- The minimum grant amount is $500,000.
- The maximum grant amount is $1.5 million.

We expect that most grants will be between $500,000 and $1 million, depending on the scope and complexity of your project. Applications for grants greater than $1 million will need to be highly competitive.

Co-contribution is not mandatory; however, we expect that competitive applications will leverage additional investment in the form of cash or in-kind contributions. Co-investment can come from your entity, State and Territory government grants or project partners. Where you provide in-kind contributions such as labour, equipment or materials, you must calculate the equivalent dollar value.

You are responsible for any eligible project expenditure not covered by the grant, plus any ineligible expenditure.

#### 3.2. Project period

The maximum project period is 2.5 years.

You must complete your project by 31 March 2024.

### 4. Eligibility criteria

We cannot consider your application if you do not satisfy all eligibility criteria.

#### 4.1. Who is eligible?

To be eligible you must:

---

• have an Australian Business Number (ABN)

and be one of the following entities:
• an entity, incorporated in Australia
• a co-operative.

Joint applications are acceptable and encouraged. To submit a joint application you must have a lead organisation who is the main driver of the project and is eligible to apply. For further information on joint applications, refer to section 7.2.

4.2. Additional eligibility requirements

We can only accept applications:
• where you certify that the project is supported by your board (or chief executive officer or equivalent if there is no board), and that you can complete the project and meet any costs of the project not covered by grant funding
• where you certify that you will provide research data and outputs to the department and any nominated third party for the purposes of developing the emissions framework
• where you provide a declaration, on the template provided on business.gov.au, that confirms that you have or will have relevant intellectual property arrangements in place in order to undertake your project
• where you provide all mandatory attachments in your application.

We cannot waive the eligibility criteria under any circumstances.

4.3. Who is not eligible?

You are not eligible to apply if you are:
• an organisation, or your project partner is an organisation, included on the National Redress Scheme’s website on the list of ‘Institutions that have not joined or signified their intent to join the Scheme’ (www.nationalredress.gov.au)
• an individual
• an unincorporated association
• any organisation not included in section 4.1
• a non-corporate Commonwealth entity

If you are ineligible to apply, you can be a partner to a joint application where the lead organisation is eligible to apply.

5. What the grant money can be used for

5.1. Eligible activities

To be eligible your project must:
• be aimed at trialling low emissions feed technologies to collect relevant data to improve understanding of associated abatement potential and productivity outcomes
• include research conducted in Australia directly involving livestock producers
• support the development of an livestock emissions framework for livestock at farm, supply chain and national scale
• have at least $500,000 in eligible expenditure.
Eligible activities may include:

- working with livestock producers to plan, design, construct and conduct research trials on the use of low emissions feed technologies and their impact on livestock emissions and productivity
- collecting and providing data in an approved format (to be advised), on the use of low emissions feed technologies and their impact on livestock emissions and productivity outcomes
- preparing, publishing, presenting or otherwise disseminating project data and outcomes to inform stakeholders of the outcomes of project trials.

Eligible activities **must** include publishing research outcomes in peer-reviewed publications.

We may approve other activities.

Successful projects must make research methods, data and outputs available to the department and any nominated third party for the purposes of developing the livestock emissions framework.

Research must focus on filling knowledge and data gaps required to develop a livestock emissions framework and demonstrate productivity impacts. Some of these gaps are known, whereas others may be identified during the program. Successful applicants may be asked, where reasonable, to re-align research activity to address knowledge gaps identified during the program.

### 5.2. Eligible expenditure

You can only spend grant funds on eligible expenditure you have incurred on an agreed project as defined in your grant agreement.

Eligible expenditure items are:

- salaries and on-costs for personnel directly employed for the project activities
- contract expenditure, i.e. the cost of any agreed project activities that you contract to others
- purchase or hire of equipment directly related to delivering your project, including computing equipment and software
- project input expenses, including animals, feed and supplements
- staff training that directly supports the achievement of project outcomes
- construction costs for creating trial sites, including purchasing materials, fencing, planning, construction and maintenance
- domestic travel limited to the reasonable cost of accommodation and transportation required to conduct agreed project and collaboration activities in Australia
- the cost of an independent audit of project expenditure up to a maximum of 1 per cent of total eligible project expenditure.

If your application is successful, we may ask you to verify project costs that you provided in your application. You may need to provide evidence such as quotes for major costs.

Not all expenditure on your project may be eligible for grant funding. The Program Delegate (who is an AusIndustry manager within the department with responsibility for the program) makes the final decision on what is eligible expenditure and may give additional guidance on eligible expenditure if required.

To be eligible, expenditure must:

- be a direct cost of the project
- be incurred by you for required project audit activities.
You must incur the project expenditure between the project start and end date for it to be eligible unless stated otherwise.
You must not commence your project until you execute a grant agreement with the Commonwealth.

5.3. What you cannot use the grant for

Expenditure items that are not eligible are:

- costs associated with farming of livestock that are not directly related to the project
- costs of purchasing, leasing, depreciation of, or development of land
- activities, equipment, services or supplies that are already being supported through other sources
- routine operational expenses, including communications, accommodation, office computing facilities, printing and stationery, postage, legal and accounting fees and bank charges
- capital expenditure for the purchase of assets such as office furniture and equipment, motor vehicles, computers, printers or photocopiers not directly related to the project
- insurance costs (participants must effect and maintain adequate insurance or similar coverage for any liability arising as a result of its participation in funded activities)
- overseas travel
- costs incurred in the preparation of a grant application or related documentation.

6. The assessment criteria

You must address all assessment criteria in your application. We will assess your application based on the weighting given to each criterion.

The application form asks questions that relate to the assessment criteria below. The amount of detail and supporting evidence you provide in your application should be relative to the project size, complexity and grant amount requested. You should provide evidence to support your answers. The application form displays size limits for answers.

We will only consider funding applications that score at least 50% per cent against each assessment criterion, as these represent best value for money.

6.1. Assessment criterion 1

The extent that your project will contribute data on livestock emissions reduction and productivity outcomes by conducting trials on low emissions feed technologies (30 points).

You should demonstrate this by describing:

a. how your project will generate data to support livestock emission reduction and productivity outcome calculations when using low emissions feed technologies
b. the applicability of your research to calculating livestock emission reductions and productivity outcomes across a range of environments and/or production systems
c. the extent that your project complements, builds on and does not duplicate existing or planned research
d. how you will make your data available to support a new livestock emissions framework.
6.2. **Assessment criterion 2**

The extent that your project will engage livestock producers and service providers to develop understanding and increase experience with low emissions feed technologies (30 points).

You should demonstrate this by describing:

a. how livestock producers or service providers will participate in your data collection
b. how your project will demonstrate the benefits of using low emissions feed technologies, including ease of use and cost-effectiveness, and support their uptake
c. how you will communicate trial findings and engage with industry to encourage adoption of new feed technologies.

6.3. **Assessment criterion 3**

**Capacity, capability and resources to deliver the project (20 points).**

You should demonstrate this by describing:

a. your project team’s knowledge, skills and access to resources to effectively manage your project, including your access to personnel with relevant skills and experience
b. your project plan, including your plan to:
   - manage the project including scope, implementation methodology and timeframes
   - mitigate delivery risks
   - secure required regulatory or other approvals
c. your communications plan, including your plan to publish and disseminate information to producers and other industry stakeholders
d. how you will measure the success of your project.

You must attach a project plan, communication plan and a detailed project budget with your application.

6.4. **Assessment criterion 4**

**Impact of grant funding (20 points).**

You should demonstrate this by describing:

a. the quantum of co-investment (cash or in-kind contributions from your entity, other levels of government or project partners)
b. how the grant will impact your project scope
c. the likelihood your project would not proceed without the grant
d. any additional investment the grant will leverage and explain how this benefits your project.

7. **How to apply**

Before applying you should read and understand these guidelines, the sample [application form](#) and the sample [grant agreement](#) published on business.gov.au and GrantConnect.

To apply, you must:

- complete the online [application form](#) via business.gov.au
• provide all the information requested
• address all eligibility and assessment criteria
• include all necessary attachments

You should retain a copy of your application for your own records.

You are responsible for making sure your application is complete and accurate. Giving false or misleading information is a serious offence under the *Criminal Code Act 1995* (Cth). If we consider that you have provided false or misleading information we may not progress your application. If you find an error in your application after submitting it, you should call us immediately on 13 28 46.

If we find an error or information that is missing, we may ask for clarification or additional information from you that will not change the nature of your application. However, we can refuse to accept any additional information from you that would change your submission after the application closing time.

If you need further guidance around the application process, or if you are unable to submit an application online, contact us at business.gov.au or by calling 13 28 46.

7.1. Attachments to the application

You must provide the following documents with your application:

• project plan
• communication plan
• detailed project budget
• declaration on the template provided on business.gov.au, that confirms that you have or will have relevant intellectual property arrangements in place in order to undertake your project.

Templates for mandatory attachments are available on business.gov.au,

You must attach supporting documentation to the application form in line with the instructions provided within the form. You should only attach requested documents. We will not consider information in attachments that we do not request.

7.2. Joint applications

We recognise that some organisations may want to join together as a group to deliver a project. In these circumstances, you must appoint a lead organisation. Only the lead organisation can submit the application form and enter into the grant agreement with the Commonwealth. The application should identify all other members of the proposed group and include a letter of support from each of the project partners. Each letter of support should include:

• details of the project partner
• an overview of how the project partner will work with the lead organisation and any other project partners in the group to successfully complete the project
• an outline of the relevant experience and/or expertise the project partner will bring to the group
• the roles/responsibilities the project partner will undertake, and the resources it will contribute (if any)
• details of a nominated management level contact officer.

You must have a formal arrangement in place with all parties prior to execution of the grant agreement.
7.3. Timing of grant opportunity

You can only submit an application between the published opening and closing dates. We cannot accept late applications.

If you are successful we expect you will be able to commence your project around August 2021.

8. The grant selection process

We first review your application against the eligibility criteria. If eligible, we will then assess it against the assessment criteria. Only eligible applications will proceed to the assessment stage.

We consider your application on its merits, based on:

- how well it meets the criteria
- how it compares to other applications
- whether it provides value with relevant money.

When assessing whether the application represents value with relevant money, we will have regard to:

- the overall objectives of the grant opportunity
- the evidence provided to demonstrate how your project contributes to meeting those objectives
- the relative value of the grant sought.

We will establish a committee comprised of Australian government representatives and independent technical experts to assess applications.

The committee will assess your application against the assessment criteria and compare it to other eligible applications before recommending which projects to fund.

If the selection process identifies unintentional errors in your application, we may contact you to correct or clarify the errors, but you cannot make any material alteration or addition.

8.1. Who will approve grants?

The Minister decides which grants to approve taking into account the application assessment, and the availability of grant funds. The Minister’s decision is final in all matters, including:

- the grant approval
- the grant funding to be awarded
- any conditions attached to the offer of grant funding.
We cannot review decisions about the merits of your application. The Minister will not approve funding if there is insufficient program funds available across relevant financial years for the program.

9. Notification of application outcomes

We will advise you of the outcome of your application in writing. If you are successful, we advise you of any specific conditions attached to the grant.

10. Successful grant applications

10.1. Grant agreement

You must enter into a legally binding grant agreement with the Commonwealth. We will use a Commonwealth simple grant agreement. The grant agreement has general terms and conditions that cannot be changed. A sample grant agreement is available on business.gov.au and GrantConnect.

We must execute a grant agreement with you before we can make any payments. Execute means both you and the Commonwealth have signed the agreement. You must not start any Methane Emissions Reduction in Livestock: Research Grants activities until a grant agreement is executed.

The approval of your grant may have specific conditions determined by the assessment process or other considerations made by the Program Delegate. We will identify these in the offer of grant funding.

The Commonwealth may recover grant funds if there is a breach of the grant agreement.

10.2. Project specific legislation, policies and industry standards

You must comply with all relevant laws and regulations in undertaking your project. You must also comply with the specific legislation/policies/industry standards that follow. It is a condition of the grant funding that you meet these requirements. We will include these requirements in your grant agreement.

In particular, you will be required to comply with Commonwealth/State/Territory legislation in relation to:

- working with children
- animal care and protection, including the ethical treatment of and prevention of cruelty to animals
- Australian Code for the Responsible Conduct of Research 2007
- environmental protection
- management of wildlife and listed threatened species
- agricultural and veterinary chemicals use, including the AgVet Codes
- biosecurity, to prevent the spread of weeds, pests and diseases.

10.3. How we pay the grant

The grant agreement will state the:

- maximum grant amount we will pay
- proportion of eligible expenditure covered by the grant (grant percentage)
We will not exceed the maximum grant amount under any circumstances. If you incur extra costs, you must meet them yourself.

We will make payments according to an agreed schedule set out in the grant agreement. Payments are subject to satisfactory progress on the project.

10.4. Tax obligations

If you are registered for the Goods and Services Tax (GST), where applicable we will add GST to your grant payment and provide you with a recipient created tax invoice. You are required to notify us if your GST registration status changes during the project period. GST does not apply to grant payments to government related entities.\(^2\)

Grants are assessable income for taxation purposes, unless exempted by a taxation law. We recommend you seek independent professional advice on your taxation obligations or seek assistance from the Australian Taxation Office. We do not provide advice on tax.

11. Announcement of grants

We will publish non-sensitive details of successful projects on GrantConnect. We are required to do this by the Commonwealth Grants Rules and Guidelines unless otherwise prohibited by law. We may also publish this information on business.gov.au. This information may include:

- name of your organisation
- title of the project
- description of the project and its aims
- amount of grant funding awarded
- Australian Business Number
- business location
- your organisation’s industry sector.

12. How we monitor your grant activity

12.1. Keeping us informed

You should let us know if anything is likely to affect your project or organisation.

We need to know of any key changes to your organisation or its business activities, particularly if they affect your ability to complete your project, carry on business and pay debts due.

You must also inform us of any changes to your:

- name
- addresses
- nominated contact details
- bank account details.

If you become aware of a breach of terms and conditions under the grant agreement you must contact us immediately.

---

\(^2\) See Australian Taxation Office ruling GSTR 2012/2 available at ato.gov.au
You must notify us of events relating to your project and provide an opportunity for the Minister or their representative to attend.

12.2. Reporting

You must submit reports in line with the grant agreement. We will provide the requirements for these reports as appendices in the grant agreement. We will remind you of your reporting obligations before a report is due. We will expect you to report on:

- progress against agreed project milestones
- project expenditure, including expenditure of grant funds

The amount of detail you provide in your reports should be relative to the project size, complexity and grant amount.

We will monitor the progress of your project by assessing reports you submit and may conduct site visits to confirm details of your reports if necessary. Occasionally we may need to re-examine claims, seek further information or request an independent audit of claims and payments.

12.2.1. Progress reports

Progress reports must:

- include details of your progress towards completion of agreed project activities
- show the total eligible expenditure incurred to date
- be submitted by the report due date (you can submit reports ahead of time if you have completed relevant project activities).

We will only make grant payments when we receive satisfactory progress reports.

You must discuss any project or milestone reporting delays with us as soon as you become aware of them.

12.2.2. End of project report

When you complete the project, you must submit an end of project report.

End of project reports must:

- include the agreed evidence as specified in the grant agreement
- identify the total eligible expenditure incurred for the project
- include a declaration that the grant money was spent in accordance with the grant agreement and to report on any underspends of the grant money
- be submitted by the report due date.

12.2.3. Ad-hoc reports

We may ask you for ad-hoc reports on your project. This may be to provide an update on progress, or any significant delays or difficulties in completing the project.

12.3. Independent audits

You must provide an independent audit report on completion of your project. An audit report will verify that you spent the grant in accordance with the grant agreement. The audit report requires you to prepare a statement of grant income and expenditure. The report template is available on business.gov.au and GrantConnect.
12.4. Compliance visits

We may visit you during the project period, or at the completion of your project to review your compliance with the grant agreement. We may also inspect the records you are required to keep under the grant agreement. We will provide you with reasonable notice of any compliance visit.

12.5. Grant agreement variations

We recognise that unexpected events may affect project progress. In these circumstances, you can request a variation to your grant agreement, including:

- changing project milestones
- extending the timeframe for completing the project but within the maximum project period
- changing project activities.

The program does not allow for:

- an increase of grant funds.

If you want to propose changes to the grant agreement, you must put them in writing before the project end date. We can provide you with a variation request template.

If a delay in the project causes milestone achievement and payment dates to move to a different financial year, you will need a variation to the grant agreement. We can only move funds between financial years if there is enough program funding in the relevant year to allow for the revised payment schedule. If we cannot move the funds, you may lose some grant funding.

You should not assume that a variation request will be successful. We will consider your request based on factors such as:

- how it affects the project outcome
- consistency with the program policy objective, grant opportunity guidelines and any relevant policies of the department
- changes to the timing of grant payments
- availability of program funds.

12.6. Evaluation

We will evaluate the grant opportunity to measure how well the outcomes and objectives have been achieved. We may use information from your application and project reports for this purpose.

We may also interview you, or ask you for more information to help us understand how the grant impacted you and to evaluate how effective the program was in achieving its outcomes.

We may contact you up to two years after you finish your project for more information to assist with this evaluation.

12.7. Grant acknowledgement

If you make a public statement about a project funded under the program, including in a brochure or publication, you must acknowledge the grant by using the following:

‘This project received grant funding from the Australian Government.’
13. Probity

We will make sure that the grant opportunity process is fair, according to the published guidelines, incorporates appropriate safeguards against fraud, unlawful activities and other inappropriate conduct and is consistent with the CGRGs.

13.1. Conflicts of interest

Any conflicts of interest could affect the performance of the grant opportunity or program. There may be a conflict of interest, or perceived conflict of interest, if our staff, any member of a committee or advisor and/or you or any of your personnel:

- has a professional, commercial or personal relationship with a party who is able to influence the application selection process, such as an Australian Government officer or member of an external panel.
- has a relationship with or interest in, an organisation, which is likely to interfere with or restrict the applicants from carrying out the proposed activities fairly and independently or
- has a relationship with, or interest in, an organisation from which they will receive personal gain because the organisation receives a grant under the grant program/grant opportunity.

As part of your application, we will ask you to declare any perceived or existing conflicts of interests or confirm that, to the best of your knowledge, there is no conflict of interest.

If you later identify an actual, apparent, or perceived conflict of interest, you must inform us in writing immediately.

Conflicts of interest for Australian Government staff are handled as set out in the Australian Public Service Code of Conduct (Section 13(7)) of the Public Service Act 1999 (Cth). Committee members and other officials including the decision maker must also declare any conflicts of interest.

We publish our conflict of interest policy on the department’s website.

13.2. How we use your information

Unless the information you provide to us is:

- confidential information as per 13.2.1, or
- personal information as per 13.2.3,

we may share the information with other government agencies for a relevant Commonwealth purpose such as:

- to improve the effective administration, monitoring and evaluation of Australian Government programs
- for research
- to announce the awarding of grants.

---

13.2.1. How we handle your confidential information

We will treat the information you give us as sensitive and therefore confidential if it meets all of the following conditions:

- you clearly identify the information as confidential and explain why we should treat it as confidential
- the information is commercially sensitive
- disclosing the information would cause unreasonable harm to you or someone else
- you provide the information with an understanding that it will stay confidential.

13.2.2. When we may disclose confidential information

We may disclose confidential information:

- to the committee and our Commonwealth employees and contractors, to help us manage the program effectively
- to the Auditor-General, Ombudsman or Privacy Commissioner
- to the responsible Minister or Assistant Minister
- to a House or a Committee of the Australian Parliament.

We may also disclose confidential information if:

- we are required or authorised by law to disclose it
- you agree to the information being disclosed, or
- someone other than us has made the confidential information public.

13.2.3. How we use your personal information

We must treat your personal information according to the Australian Privacy Principles (APPs) and the Privacy Act 1988 (Cth). This includes letting you know:

- what personal information we collect
- why we collect your personal information
- to whom we give your personal information.

We may give the personal information we collect from you to our employees and contractors, the committee, and other Commonwealth employees and contractors, so we can:

- manage the program
- research, assess, monitor and analyse our programs and activities.

We, or the Minister, may:

- announce the names of successful applicants to the public
- publish personal information on the department’s websites.

You may read our Privacy Policy on the department’s website for more information on:

- what is personal information
- how we collect, use, disclose and store your personal information
- how you can access and correct your personal information.

---

13.2.4. Freedom of information

All documents in the possession of the Australian Government, including those about the program, are subject to the Freedom of Information Act 1982 (Cth) (FOI Act).

The purpose of the FOI Act is to give members of the public rights of access to information held by the Australian Government and its entities. Under the FOI Act, members of the public can seek access to documents held by the Australian Government. This right of access is limited only by the exceptions and exemptions necessary to protect essential public interests and private and business affairs of persons in respect of whom the information relates.

If someone requests a document under the FOI Act, we will release it (though we may need to consult with you and/or other parties first) unless it meets one of the exemptions set out in the FOI Act.

13.3. National Security

You and any individuals participating in the project must disclose all foreign ownership (including foreign government ownership), affiliations with foreign governments, organisations, institutions or companies, or membership of foreign government talent programs. You must report any material changes in the nature of the activity or key personnel involved, including affiliations/links with foreign governments or companies.

If you have acknowledged in the declaration that, you can appropriately manage national security risks, we may ask you to provide a satisfactory risk assessment plan outlining your approach as a condition of funding.

13.4. Disclosure of financial penalties

You must disclose whether any of your board members, management or persons of authority have been subject to any pecuniary penalty, whether civil, criminal or administrative, imposed by a Commonwealth, State, or Territory court or a Commonwealth, State, or Territory entity. If this is the case, you must provide advice to the department regarding the matter for consideration.

13.5. Enquiries and feedback

For further information or clarification, you can contact us on 13 28 46 or by web chat or through our online enquiry form on business.gov.au.

We may publish answers to your questions on our website as Frequently Asked Questions.

Our Customer Service Charter is available at business.gov.au. We use customer satisfaction surveys to improve our business operations and service.

If you have a complaint, call us on 13 28 46. We will refer your complaint to the appropriate manager.

If you are not satisfied with the way we handle your complaint, you can contact:

Head of Division
AusIndustry
Department of Industry, Science, Energy and Resources
GPO Box 2013
CANBERRA ACT 2601
You can also contact the Commonwealth Ombudsman with your complaint (call 1300 362 072). There is no fee for making a complaint, and the Ombudsman may conduct an independent investigation.

## 14. Glossary

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Application form</td>
<td>The document issued by the Program Delegate that applicants use to apply for funding under the program.</td>
</tr>
<tr>
<td>AusIndustry</td>
<td>The division of the same name within the department.</td>
</tr>
<tr>
<td>Department</td>
<td>The Department of Industry, Science, Energy and Resources.</td>
</tr>
<tr>
<td>Eligible activities</td>
<td>The activities undertaken by a grantee in relation to a project that are eligible for funding support as set out in 5.1.</td>
</tr>
<tr>
<td>Eligible application</td>
<td>An application or proposal for grant funding under the program that the Program Delegate has determined is eligible for assessment in accordance with these guidelines.</td>
</tr>
<tr>
<td>Eligible expenditure</td>
<td>The expenditure incurred by a grantee on a project and which is eligible for funding support as set out in 5.2.</td>
</tr>
<tr>
<td>Feed technology</td>
<td>Low emissions forage feed and feed supplements, in particular (but not only): the 2 forage feeds – <em>Desmanthus</em> and <em>Leucaena</em>; and the 2 feed supplements – <em>Asparagopsis</em> and 3-NOP.</td>
</tr>
<tr>
<td>Grant agreement</td>
<td>A legally binding contract between the Commonwealth and a grantee for the grant funding.</td>
</tr>
<tr>
<td>Grant funding or grant funds</td>
<td>The funding made available by the Commonwealth to grantees under the program.</td>
</tr>
<tr>
<td>GrantConnect</td>
<td>The Australian Government's whole-of-government grants information system, which centralises the publication and reporting of Commonwealth grants in accordance with the CGRGs.</td>
</tr>
<tr>
<td>Grantee</td>
<td>The recipient of grant funding under a grant agreement.</td>
</tr>
<tr>
<td>Guidelines</td>
<td>Guidelines that the Minister gives to the department to provide the framework for the administration of the program, as in force from time to time.</td>
</tr>
<tr>
<td>Livestock</td>
<td>For the purposes of these guidelines, livestock means beef cattle, dairy cattle and sheep.</td>
</tr>
<tr>
<td>Livestock emissions</td>
<td>Livestock emissions primarily means emissions of methane from enteric fermentation in livestock, but can also other greenhouse gas emissions that are emitted by livestock or resulting from farming of the livestock (e.g. nitrous oxide from urine or dung).</td>
</tr>
<tr>
<td>Minister</td>
<td>The Commonwealth Minister for Energy and Emissions Reduction.</td>
</tr>
<tr>
