Space Infrastructure Fund: Space Payload Qualification Facilities grant opportunity Project Plan

Applicant name	[applicant organisation name]
Project title	[project title]

You must submit a project plan with your grant application to demonstrate your case against Assessment criterion 2.

You must make a strong case that you can effectively manage national security risks to be awarded funding.

Your project plan should address how you plan to:

- manage the project including scope, implementation methodology and timeframes
- mitigate cyber security and national security risks, including potential for foreign interference, in the establishment and on-going operations of the centre
- secure required regulatory or other approvals.

Project plan

a. Describe the scope, implementation methodology and timeframe for your project.

b. Describe how you will mitigate cyber security and national security risks, including potential for foreign interference, in the establishment and on-going operations of the centre.

c. Describe how you will secure any regulatory, or other, approvals required to undertake the project.

d. Describe how you will monitor progress and performance of your project (eg, KPIs, objectives).
